## Requirements

Requirements documentation from Assessment 1: https://engteam14.github.io/website2/pdfs/Req1.pdf

## A) Elicitation of requirements

- 1. The provided product brief indicated the overall goals and intentions of the finished product and contained general descriptions of its desired functionality
- Group brainstorming session was held to compare our interpretations of the brief and to raise a list of questions to address to the customer
- 3. In a group meeting with the customer, answers to the questions and any other customer comments were detailed in informal meeting notes.
- 4. Recorded info was formalised as a set of user requirements.
- 5. User requirements were distilled down into more specific functional and non-functional requirements.
  - 1. Functional requirements detailed concrete, specific functionality and capabilities of the product as related to its software implementation.
  - 2. Non-functional requirements captured the performative characteristics of the completed product as a whole which could be perceived by the user or tester.
- 6. Resulting functional and non-functional requirements were closely evaluated for possible risks to their implementation; these were detailed within the risk register.

## Research into requirement specification and presentation

- IEEE requirements engineering document<sup>1</sup>:
  - Provided comprehensive information on all aspects of requirement elicitation and presentation, although sections 5.1-5.2.8 and 6.1-6.6.3 were most helpful
  - Contained robust justification for the need for requirements and their role in the overall software lifecycle process
  - Informed our choice of specific language, priority language(low/medium/high), the choice of imperative tone, and justifications for these
  - Ultimately, aimed at larger, more critical projects than ours
- ENG1 lecture on requirements engineering:
  - Provided an excellent overview of the motivations for requirements engineering and a lucid overview of this process
  - Introduced the user/functional/non-functional requirements methodology which proved an excellent fit for our scope of project (versus lifecycle-based requirement methodology in the IEEE document)
  - Demonstrated requirements tables as a tool for writing down and detailing requirements

Informed by these resources, we chose a tabular format for implementing for the requirements register, allowing us to easily add additional metadata to individual rows as extra columns and permitting a quick, comprehensive overview of the entire register. All rows were labeled with unique identifiers, permitting cross-referencing between user and

(non-)functional requirements, as well as with other sections of project documentation, such as the risk register and architecture specs.

**B)** Requirements Tables

ID	Description	<b>Priority</b>
UR_PLATFORM	The user shall use a standard laptop PC to play the game	High
UR_GAME_INIT	The user shall begin a new game from an initial state	High
UR_SHIP_CONTROL	The user shall control a ship sailing across the great Lake of York	High
UR_COMPETING_COLLEGES	The user shall encounter at least 3 other colleges	Medium
UR_LEARNING_CURVE	The user shall play the game without training	High
UR_GAME_DURATION	The user shall be able to complete the game within a ~5 minute timespan	High
UR_GAME_OBSERVABILITY	The game shall accomodate onlookers in the PCs surroundings	Low
	The user shall encounter friendly NPC ships	Low
UR_HOSTILE_SHIP_ENCOUNTER	The user shall encounter hostile NPC ships	Low
UR_FIRE_WEAPONS	The user shall be able to fire weapons from the ship	High
UR_BULLET_DODGE	The user shall be able to maneuver their ship to dodge fired munitions	Medium
UR_HOSTILE_BUILDING_COMBAT	The user shall engage in combat with hostile buildings	Medium
UR_HOSTILE_COLLEGE_CAPTURE	The user shall capture other colleges via combat	High
UR_EARN_PLUNDER	The user shall earn plunder	High
UR EARN XP	The user shall earn XP	High

<sup>&</sup>lt;sup>1</sup> Systems and software engineering -- Life cycle processes -- Requirements engineering, ISO/IEC/IEEE 29148:2018(E), 2018.

ID	Description	Priority
UR_QUEST_PROGRESS	The user shall progress through a series of quests	Medium
UR_GAME_WIN	The user shall win the game through achieving an ultimate objective unlocked by the fulfilment of preceding requirements/quests	Medium
UR_GAME_LOSE	The user shall lose the game through being defeated in combat	High
UR_SHIP_COMBAT	The user should be able to engage in combat with other ships	High
UR_OBSTACLE_ENCOUNTER	The user may encounter obstacles while sailing in game	High
UR_WEATHER_ENCOUNTER	The user may encounter bad weather while sailing	High
UR_SPEND_PLUNDER	The user should be able spend the plunder earned	High
UR_POWER_UP	The user should be able to obtain power ups through either the shop or at random locations on the map.	High
UR_DFCLTY_LVL	The user should be able to choose from 3 difficulty levels (e.g. easy, normal, hard)	High
UR_GAME_SAVE	The user should be able to save the state of the game at any time and be able to resume it at a later point.	High

**Functional Requirements** 

ID	Description	User requirement	Risks	Priority
FR_MENU_KB_INPUT	The game shall accept keyboard input for menu navigation	UR_PLATFORM		Low
FR_VIEWPORT_SCALING	13"-27" monitor	UR_PLATFORM	R5	High
FR_MIN_FPS	The game shall render at a minimum of 30 FPS	UR_PLATFORM	R6	High
FR_CROSS_PLATFORM_WIN	Windows	UR_PLATFORM		High
FR_CROSS_PLATFORM_MAC	OS	UR_PLATFORM		Low
FR_CROSS_PLATFORM_GNU_LINUX	The game shall be playable on GNU/Linux	UR_PLATFORM		Low
FR_GAME_RESET	The game shall allow restarting play from an initial configuration	UR_GAME_INIT		High
FR_SHIP_KB_INPUT	control	UR_SHIP_CONTROL		High
FR_COLLEGE_ENTITY_TRACKING	The game shall keep track of ships and buildings for a minimum of 3 distinct factions	UR_COMPETING_COLLEGES		High
FR_FRIENDLY_AI	of friendly ships	UR_FRIENDLY_SHIP_ENCOUNTER		Low
FR_HOSTILE_AI	of enemy ships	UR_HOSTILE_SHIP_ENCOUNTER	R1, R3	Medium
FR_PLAYER_FIRE	fire ship weapons	UR_FIRE_WEAPONS		High
FR_PLAYER_HEALTH	points	UR_SHIP_COMBAT		Medium
FR_PLAYER_AMMO	The game shall maintain the state of the user's ship armament and ammunition	UR_FIRE_WEAPONS		High

ID	Description	User requirement	Risks	Priority
FR_BULLET_TRAVEL	The game shall render the travel of a ship's fired munition	UR_BULLET_DODGE	R2	High
FR_PLUNDER_TRACKING	The game shall keep track of a player's plunder	UR_EARN_PLUNDER, UR_SPEND_PLUNDER		High
FR_PLUNDER_UPDATE	The game shall reward plunder on success in quests and encounters	UR_EARN_PLUNDER		High
FR_XP_UPDATE	The game shall give XP with time survived and obstacles navigated	UR_EARN_XP		Medium
FR_XP_TRACKING	The game shall keep track of a player's XP	UR_EARN_XP		High
FR_XP_UPDATE	The game shall give XP on successful combat encounters completed	UR_EARN_XP		Medium
FR_QUEST_TRACKING	The game shall maintain the state of the user's progress through multiple objectives	UR_QUEST_PROGRESS		High
FR_QUEST_RANDOMISE	The game shall randomise user's objectives between different playthroughs	UR_QUEST_PROGRESS		Medium
FR_QUEST_OBJECTIVE	The game shall associate quest objectives with game entities	UR_QUEST_PROGRESS		Medium
FR_PLAYER_DEFEAT	The game shall display game stats upon player defeat	UR_GAME_LOSE		Low
FR_SCENARIO_FAIL	The game shall display game stats upon game over scenario completion	UR_GAME_LOSE		Low
FR_PLAYER_DAMAGE	The game shall track damage that the player takes and adjust the displayed health accordingly			Medium
FR_ENEMY_SHIP_DAMAGE	The game shall track damage dealt to enemy ships	UR_SHIP_COMBAT		Medium
FR_OBSTACLE_SHOW	The game shall render obstacles for the player to encounter	UR_OBSTACLE_ENCOUNTER		Medium
FR_OBSTACLE_HIT	The game shall deal damage to the user when the user hits an obstacle	UR_OBSTACLE_ENCOUNTER		Medium
FR_WEATHER_SHOW	The game shall render weather events for the player to encounter	UR_WEATHER_ENCOUNTER		Medium

ID	Description	User requirement	Risks	Priority
FR_WEATHER_HIT	The game shall deal damage to the user when the user enters a weather event	UR_WEATHER_ENCOUNTER		Medium
FR_PLUNDER_SPEND	The game shall allow users to spend plunder in exchange for benefits to the player	UR_SPEND_PLUNDER		Low
FR_POWER_UP	The game shall boost certain elements of the gameplay such as speed, weapons and damage when the user collects a power-up			Medium
FR_DFCLTY_CHANGE	The game shall allow users to change the difficulty setting before the game starts	UR_DFCLTY_LVL		Low
FR_DFCLTY_DFRNCE	The game shall adjust elements of the gameplay (speed of enemies, health, damage dealing etc.) according to the difficulty level	UR_DFCLTY_LVL Low		
FR_SAVE_GAME_STATE	The game shall save the state of the game at any point when the user clicks 'save'	UR_GAME_SAVE	R9	Medium
FR_LOAD_GAME	The game shall be able to load the game from the same point at which it was saved	UR_GAME_SAVE	R9	Medium

**Non-Functional Requirements** 

ID	Description	User requirement	Fit criteria	Risks	<b>Priority</b>
NFR_SHIP_COLLISIONS	The game shall detect collisions between different ships	UR_HOSTILE_SHIP_ENCOUNTER	Distance between drawn assets <5px		High
NFR_WORLD_COLLISIONS	The game shall detect collisions between ships and world objects	UR_COMPETING_COLLEGES	Distance between drawn assets <5px		High
NFR_BULLET_COLLISIONS	The game shall detect collisions between game entities and fired munitions	UR_BULLET_DODGE	Distance between drawn assets <5px		High
NFR_USER_INPUT_LAG	The game shall be responsive to user input	UR_SHIP_CONTROL	Input lag <200ms		High

ID	Description	User requirement	Fit criteria	Risks	Priority
NFR_AI_LAG	NPC actions' responsiveness shall approximate that of player actions	UR_HOSTILE_SHIP_ENCOUNTER	Al response time <200ms		Low
NFR_RENDER_SMOOTHNESS	during player movement	UR_SHIP_CONTROL	Visual render lag <200ms	R8	Medium
NFR_COLOURBLINDNESS	by a colourblind person	UR_PLATFORM	Subjective screenshot test via colourblind accessibility evaluation app		Medium
NFR_EASE_OF_USE	The game shall be self- explainable and feature obvious controls	UR_LEARNING_CURVE	Tester must be able to pick up and play with no prior instruction		High
NFR_GAME_DURATION	The game shall finish within ~5 mins in a win or loss for the player	UR_GAME_DURATION	Tester must reach the game stats screen within 4-6 mins		Medium
NFR_LARGE_ASSETS	The game assets shall be large enough to observe from several metre's distance away on a standard laptop PC screen	UR_GAME_OBSERVABILITY	Observer standing 2m away should be able to answer questions about gameplay state		Medium
